

THIS IS IT

Written by Sebastian Hausmann

This is it
The moment, the moment
It's hitting me
The moment, the moment
This is it
The moment, the moment
It's killing me

-

The lights turn strange and the air turns sweet
My eyes are fixed but no point they seek
I hear my rushing blood and my pumping heart
Whilst my heavy head is banging hard

-

I'm breathing fast, I'm sweating hard
The pavement seems to be made of lard
I feel the spinning earth, I make the clocks stand still
I'm a man of peace but I'm ready for the kill

-

I never felt, never felt so
Never felt so alive before

-

Now it seems all so clear to me
And yes the best things in life are free
I know the answers to all that has riddled men
But when I wake up damn I'm fucked again

-

HERE COMES THE PAIN AGAIN

Written by Sebastian Hausmann

I wake in the dead of night
The dark is slowly beating
And through the cracks & holes
The blood is slowly seeping

The beat is getting louder
The sweat is burning cold
I try just to ignore it
I'm to the devil sold

-

Oh no, let go
I can't take it any more

-

Here comes, here comes the
Here comes the pain again

-

I hear a distant roar
And then a bolt of lightning
The tempest's running wild

Oh it's stone cold frightening

And still it's getting stronger
I'm punching holes in walls
I'm screaming to the heavens
(But) No one returns my calls

-

Oh no, let go
I can't take it anymore

-

Here comes, here comes the
Here comes the pain again

-

(STILL) WAITING FOR MIRACLES

Written by Sebastian Hausmann

Won't take no for an answer
Every girl a table dancer
Every boy a rented hole
A sad infected junkie soul
Dangerous and open minded
Games he plays always one-sided
Your downfall is calculated
Glory days have faded

-

Tomorrow will be
Sanctuary
Young boys young girls
Waiting for miracles
Just to get by
Need to get high
Young boys young girls
Waiting for miracles

-

Easy cheating easy lie
Nothing to lose you can always die
Pavement fighting out for six
This will be your last fix
Needle dreaming powder joy
I'm anybody's I'm your toy
Build yourself up with a pill
It takes guts to kill

Chasing after mother's love
Hide from dragons high above
Come to mummy I'm sure he said
Drugged me fucked me left for dead
But I guess I was asking for it
And it bit me before I saw it
Sucked my soul I had no chance
Ring the bell for last dance

NIGHTCRAWLER

Written by Sebastian Hausmann

I go out when the streets are dead
The only creatures lie in my head
I'm a nightcrawler, I'm a nightcrawler
I look for pray with a touch of class
I show no mercy but I strike fast
I'm a nightcrawler, I'm a nightcrawler

-

My eyes will burn, my kiss will smother
It's to late to call for your mother

I'm a nightcrawler, crawling over you
I'm a nightcrawler, making love to the moon

-

I got no friends but I'm not alone
In my head many call their home
I'm a nightcrawler, I'm a nightcrawler
I can make all your dreams come true
My poison fingers will anoint you
I'm a nightcrawler, I'm a nightcrawler

-

Confused and lonely I'm just half a man
So focused, clear and cruel, a beast I am
First your scared and then you're smitten
On the wall in blood it's written
We've come to far there's no turning back

-

As I sit and wait for dark
Rely on instinct and not bad luck
I'm a nightcrawler, I'm a nightcrawler
And as my shadow swallows you
Sadness returns right on cue
I'm a nightcrawler, I'm a nightcrawler

FREESPACE

Written by Sebastian Hausmann

I've broken all my rusty chains
Threw them in the river rhine
There's nothing holding me here
I've said all my goodbyes
You might think me a fool
To break what's not been fixed
But you best be aware
Of the luxury tricks

And the ticks and the clocks
With their toxins

Of calm and cold sleep
No thought what you eat
But I'd rather be alone
With this storm in my head
Yeah I'd rather be alone with you in my bed

I won't be late
Put my life in a suitcase
'Cos I got a date in
Freespace

Another burden relieved
Another weight that's been sunk
Another monkey's been shot
My new friend is a skunk
And this time I'll make sure
I won't fall in the trap
Of complacent restraint
That slowly sucks all the sap

And the map turns to black
Won't look back, nothing left to be had
I'm free to be bad
Yeah I'm free of the old
I'm free of the new
Without further ado
I want to break out with you

I JUST WANNA MAKE LOVE TO YOU

Written by Sebastian Hausmann

I just wanna make love to you
I just wanna stay in bed
I just wanna morning noon and night
Make love to you, alright

I just wanna really turn you on
I just wann make you hot (wet)
I just wanna morning noon and night
Baby turn you on alright

-

I just can't get enough, get enough of you
'Cos I'm just so in love, so in love with you
No I just can't get enough, get enough of you

Tell me what I should do
When your not with me
Tell me what I can do
To stop me going insane

-

Baby you're just too much, just too much for me
Even the slightest touch, a touch too much for me ?
Baby you're just too much, just too much for me

Tell me what I should do
When you're not with me
Tell me what I can do
To stop me going insane

NO MORE ROCK'N'ROLL

Written by Sebastian Hausmann

You tell me that you've found a secret
One that won't let go no more
Sticking in your mind like daggers
Pulsating like a dripping sore

-

It keeps the sandman from your window
Makes your every breath a chore
All that used to be important
Holds no magic anymore

No more rock'n'roll
No more beautiful noise
No more burning souls
Just pretty girls and boys

No more anarchy
Just total state control (The business took control)
No more sex and drugs
There's no more rock'n'roll

They've put it in the water
And the bread that you digest
They're watching every step you make
One wrong move, they will arrest

-

They're feeding sweets to the children
It makes them so happy
They will grow, work, marry and multiply
But no opinion they will carry

Has the bubble finally burst
Has the dream flown the nest
Has your imagination faded
Have you laid your love to rest

-

Are you just gonna give up like that
Have you fought your last fight
The rest of your life you'll tow the line ?

Will your wings never feel flight, never feel?

ORDINARY DAY

Written by Sebastian Hausmann

Wake up cold morning, winter sun is dawning
Blancet of mist lying on the field

I turn around and feel your body warming
I dive back down behind the loving shield

-

Call the angels out to play
There is no ordinary day
Love and fortune'll come your way
On any ordinary day

-

Feel your body all cream and soft fur
Pulsating through me like waves of light

My highest pleasure is to feel you let go
Planets colliding, come on hold on tight

-

I'll brew the coffee and I'll bake the bread
The taste of butter melting love

You float into the room lit with candles
We embrace up to the stars above

-

OOH LA LA

Written by Sebastian Hausmann

Well I met her on a Monday We had some business to attend
But it was clear from the start, that we'd end up making love instead
But I really wasn't ready It was not what I had in mind
So I tried to make excuses But a reason I just could not find

-

So I said: Ooh la la la, Ooh la la la
I'm sorry darling but I gotta go
Ooh la la la, Ooh la la la
Gotta practice for my next rock show
Ooh la la la, Ooh la la la
When she walked me right to the door
I knew I missed my chance to feel her Ooh la la

-

A few days later it was showtime She came along for the ride
God I was nervous but I knew Once onstage I would be alright
I was determined to woo her This time I wouldn't chicken out
Was going to squeeze her, tease her, please her make her scream & shout

-
But then: Ooh la la la, Ooh la la la
After show yeah the beers did flow
Ooh la la la, Ooh la la la
And we partied till it's time to go
Ooh la la la, Ooh la la la
I was in love but drunk, oh no
I knew tonight I would not taste her Ooh la la

-
In the morning when I woke up She was in no mood at all
It was now or never Everything or nothing at all
So I told her that I love her And that's the reason I screwed up
She couldn't believe what she heard,
Thought I was just another dumb schmuck

-
So then: Ooh la la la, Ooh la la la
We made love for the very first time
Ooh la la la, Ooh la la la
She was so beautiful and so divine
Ooh la la la, Ooh la la la
Now I was hers and she was mine
And nobody can get between our Ooh la la

NAKED AS THE DAY

Written by Sebastian Hausmann

Here we stand together
At the abyss it is deep
I guess there is a danger
We'll never find what we seek
Gotta keep it focused
Keep ourselves tuned in
Then even in the darkness
Know who we are and where we've been

-
We will dive into the sea
Together yeah just you and me
Naked as the day that we were born
We will climb the highest high
Sweating as we reach the sky
Naked as the day that we were born

-
Dance with me cheek to cheek
And eye to eye
The night will fold her arms around
And dance in time, you are mine
And I am so happy

-
Here we stand together
With nothing to our name

No defence around us
No desire to play games
I guess it makes us stronger
And our bonds tighter still
But there always is a danger
Cos what can love can also kill

-

Love me, come on love me
Hate me if you like
Hold me, come on hold me
Trust me it'll be alright
It'll be alright, let's make love tonight
It'll be alright

-

NUMBER ONE

Written by Sebastian Hausmann

I still believe in love ever lasting
And I still believe where my heart is, is my home
I still believe in the noble art of honesty
And I'm not prepared to give in to the norm

I still believe in following your instincts
I still believe you gotta practice what you preach
I still believe that money has no value
And in this life nirvana's out of reach

-

Yeah yeah yeah life is hard
Yeah yeah yeah love is harder
Yeah yeah yeah fighting hurts
You're born alone, you die alone
Under this sun you are number one
Number one

-

I still believe in rock'n'roll salvation
And I still believe god is in everything
I still believe that preachers they are liars
And all I know is, lying is a sin

-

Yeah yeah yeah life is hard
Yeah yeah yeah love is harder
Yeah yeah yeah fighting hurts
You're born alone, you die alone
Under this sun you are number one
Number one

-

I still believe in me and my monkey
I still believe to fly you gotta fall
I still believe I've mostly chosen wisely
But that doesn't make life easier at all

-

WALK ON WATER

Written by Sebastian Hausmann

I know I'm to blame
I get bored of this game
And so fast it's a shame
I can't enjoy the rain on my window
I don't know
I can't seem to let go
I'm always on the get go
So far but it's so close to me
But I can't see
The wood for all the trees
So scared to lose the key
No chance to be free of this load
Ancient code
Yes to question is to goad
Once guilty of crime
You will burn for all time

-

'Cos some freak walked on water
A virgin's his mother
He rose from the dead, I don't care
Go tell it to the ferryman

-

Cathedrals of splendour
Torturing offenders
That don't believe the words
Of fanatical nerds who still
Think religion
Justifies inquisition
They twist the books to pervert
Justice on earth, and as theirs
Is the only way
To heaven you will obey
And confess to evil deeds
Loving devil's seeds, yes you
Will need conversion
By friendly coercion
Or by force if needs be
The end justifies the means

-

'Cos some freak walked on water
A virgin's his mother
He rose from the dead, I don't care
Go tell it to the ferryman

-

Turn water to wine
Heal the sick with bare hands
Feed a crowd with one bread, I don't care

Go tell it to the ferryman

HALF PAST FOREVER

Written by Sebastian Hausmann

Down down down she goes
Deep inside the hearts of crows
Up up up again
The circle has been drawn way past when
Take off the blinds the signs are clear
You want to navigate you got to steer
Just don't panic take deep breaths
Do the maths of Mister Death

-
Oh oh don't you know
It's half past forever and time to go
Oh oh can't you see
You might be lost but you are free
Half past forever

-
Walk through the dark head hung high
Clip the branches let moths fly
Your dress is torn but still it shines
And radiates like christmas time

-
Memories deceive make you believe
Your life is full, you have achieved
But open the box, don't be surprised
Those faded photographs tell your lies

-
Oh oh don't you know
It's half past forever and it won't slow
Oh oh can't you see
This world ain't big enough for you and me
Half past forever
